## The Moody Interest-Free Loan Program

The Moody Interest-Free Loan Program is funded by donor contributions and administered by The Ohio State University. **Moody Interest-Free Loans are provided to student borrowers for educational expenses while attending The Ohio State University. For this particular loan program, these are defined as estimated expenses for tuition and fees, books, room and board.**

The maximum annual amount for this loan is \$3,000. The maximum aggregate amount is \$6,000.

This loan requires approval from a staff member of the OSU College of Engineering.

If approved, you may sign your promissory note in the Office of the University Bursar (Student Academic Services Building 2<sup>nd</sup> Floor). *Funds will be held for 3 business days before being disbursed to your student account.*

Borrowers repay the loan after graduating or withdrawing from The OSU Civil or Environmental Engineering program as indicated on the promissory note. In addition to being considered for the Moody Interest-Free Loan, you may also wish to pursue eligibility for a Federal Stafford Loan and/or Federal Perkins Loan. The interest rate for a Federal Subsidized Stafford Loan disbursed on or after July 1, 2010 is fixed at 4.5% for undergraduates and 6.8% for graduate students. All Federal Unsubsidized Stafford Loans disbursed on or **after July 1, 2006 have a fixed interest rate of 6.8%. The Federal Perkins Loan has a 5% fixed interest rate. Visit <http://federalstudentaid.ed.gov> for more information regarding federal student aid options.**

Students borrowing Moody Interest-Free Loan funds must complete the included Self-Certification Form provided by the University (page 6 of this application packet). If approved, terms of the loan will be available and not change for a minimum of 30 days except for changes permitted by law.

**This loan program carries a 0% fixed interest rate (subject to increase to 7% if you become delinquent on the loan).**

Repayment of this loan begins six (6) months after separation in consecutive monthly payments of at least \$50/month. This particular loan must be repaid within 3 years from the date of the first scheduled payment. Early repayment of this loan is encouraged and will not be penalized.

Estimated Repayment Example: A student borrowing a \$1,000 loan in July 2011 with a graduation date of June 2013 would pay a total of \$1,000 over the term of the loan making minimum payments of \$50 and being repaid in 20 months. A student borrowing a \$3,000 loan in July 2011 with a graduation date of June 2013 would pay a total of \$3,000 over the term of the loan making minimum payments of \$83.33 (and one final payment of \$83.45) and being repaid in 36 months.

Responsible repayment of these loan obligations by the student borrower is an important way to develop and protect good credit standing. **Loan status is reported regularly to credit agencies.**
